**SUMMER IS COMING,
DON'T WASTE IT PACKING!**

YOUR 7-STEP MOVING PROCESS

1. SURVEY

2. QUOTATION

3. DECISION

4. PACKING

5. TRANSPORT

6. DELIVERY

- 1. Survey:** We estimate the volume to be moved at your residence, and spot the elements requiring special care. This step is also the occasion for us to meet you and understand your needs.
- 2. Quotation:** Our agent provides you the service proposition & quotation the most in accordance with your needs.
- 3. Decision:** Meet several movers before deciding which partner to choose in order to hold the keys to the wisest decision.
- 4. Packing:** Our teams come to your residence to pack your belongings, ensuring they do not undergo any damage during the moving process.
- 5. Transportation & follow-up:** ASI Movers provides you weekly updates and remains at your disposal during the whole process.
- 6. Delivery & unpacking:** Your belongings are delivered and unpacked in accordance with your indications.

MOVING TO A NEW COUNTRY SOON?

1

Start preparing your move early

Easier said than done, we know, but it will give you enough time to sort through your belongings and determine what to bring and what to sell, donate or dispose of.

2

Use the right supplies

Make sure you have plenty of sturdy boxes in various sizes, as well as packing tape, bubble wrap, and packing paper.

Remember to consider the climate as well. Depending on the season and your destination, your belongings may be exposed to different temperatures and humidity levels while being stored and during transit.

3

Sorting, categorizing, labeling

The best practice when moving is to label each box with the room it belongs in and a brief description of its content. Your moving partner will issue a packing list, and we recommend you keep a room-by-room inventory of your items with you during your move.

4

Filling the boxes

Packing is an art, trust us! Here are some of our best tips to pack like a pro if you choose to do it or take care of selected items yourself:

- Pack heavy items first
- Use bubble wrap for fragile items
- Fill empty spaces with packing paper/bubble wrap
- Avoid overpacking boxes
